In Democracy is our Safety. To be a Democrat is to be more than to say " I be-

long to the Democratic party." It is a fact, which so one, Whig or Democrat, will dispute, that there are in the United States two great leading political parties. It is a fact, too, that the principles of these parties, their foundation and essence, are opposed and antagonistic to each other. Whiggery will admit that its principles diffor from the principles of the Democratic party. And now then it comes to be inquired, and let every thinking man inquire, what is Democracy, to which Whiggery is an enemy? Memory will serve many, and history all, to answer, beyond a doubt, that the principles of Demogracy are, and ever have been, the sentiment-the voice of the people. From the people, Demogracy springs-it cannot come from elsewhere. In the people it lives. the people, then they are; for that, in a political sense, is the people, which is for the people. Lately, the American people have had a clear demonstration of which party is for the people. They have seen Whiggery unvoiled, and looked upon its face. And have they not Beginnings have their consummation. Rules produce

In Europe there is a nation, once independent and free, governed by a people, and a Constitution of that people, that is now the crushed, manacled, bleeding slave of a usurping, tyrannical power. That nation (the Hungarian) has dared to lift the arm of independence, and unfurl its own banner of liberty. Power-the power of the sword has prevailed against it, and it is now at the mercy of a despot. The voice of the people, the marmer of freedom, has been stilled by the thunder of artillery. The jewels of equality, of individuality, of independence, of human rights, have been robbed from their owners and ground under the heel of a foreign monarch. A nation is to be blotted out, because it dares to whisper "man is free." It is well known (for his name was here as the champion of human equality, self-government, long before he came) that there is now in our land one Louis Kossuth, the Governor of Hungary. His mission is a mission from man to man. He comes not from court and king. He comes from a people to a people. What is it he asks? He tells us the sad story of his country and his country's wrongs. He tells us how that his nation is to be enslaved-how that the spark of freedom is to be smothered-its light go out forever at the hoarse, gruff breath of a frowning tyrant. He asks us, Have we pity! And his is no idle story. We know its truth. In the voice of that nation from across the sea, comes back, it seems, as if the echoes from our own infant tones, when we too eried, "help!" And this is our own voice we hear-the voice of liberty, struggling, stified by oppression. Shall we listen? May we sympathize? May we lift our voice and ery, " God speed Liberty !" Oh no, " no interference with the political relations of foreign governments." This is Whig doctrine. "Am I my brother's keeper?" This is Whig doctrine. This small demonstration of Whig principles shows where is the true feeling—the spirit of Democracy.
Who is it that sympathizes? who is it that takes the side of the people—that says the people of a nation have a right to govern themselves? What party is it that dares have the magnanimity to utter the sentiment to the broad world, that all men have the right upon their own soil to be free—to govern themselves? Is it the Whig party?

The covern themselves? Is it the Whig party? No. They say we have no right to open our mouth. They, therefore, sympathize with the master who forges upon his serfs the iron collar of slavery. They sympsthize with the splendor of the court and the golden drapery of the monarch. Will this doctrine do for the people! We have what we should preserve. The people

This is Democratic doctrine. This is the doctrine that the Democratic party dare utter to the world. It may on the north side of buildings and keep them there all lift up the down-trodden and oppressed of all climes? om a small matter to talk about the tendency of this winter. Let them feel the warm su country to monarchy, but let the people gnard well their rights; let them watch the tendencies of the doctrines of the two great parties; let them inquire which way the sympathy of either goes-whether to kings or to is firm enough. Should the weather be pleasant, and people-and then let them use their power to their own advantage. Let them inquire, are the rights of the poople safe with that party which withholds its sympathy for those struggling for freedom? Are the rights of the people safe with that party that defends the right of kings to subjugate and hold in slavery neighboring nations? Are the rights of the people safe with that party whose principle is, that power is right? No-it is a truth that in Democracy alone is the safety of the people. The people's rights are only safe with that party whose principle is, that the whole earth is not too broad for freedem. Reflect-think upon it. Whiggery makes its demonstration in favor of the monarchists of the old world: let the people here make their demonstration, for their own protection, at the ballot-box; let them vote for the principle, Democracy throughout the world. It is right, and that party is right that advocates it.

ITThe Democracy of New Jersey seem to be marshalling their forces for the November election. Indeed, the fight there has already commenced. At the deed, the fight there has already commenced. At the the Whig State Convention were opposed to making any municipial election held in the city of Camden last nomination for Governor—thereby expressing themselves Tuesday, they gave an earnest of what the future will satisfied with the administration of Gov. WRIGHT-a bring to light. The election was for Mayor and other city officers, and resulted in a complete triumph over and deceive the unwary.

The last resort, and the one upon which they seem to Democratic Candidates were chosen over their Whig first victory ever achieved by the Democracy since the organization of the city-but it will not be the last.

17 BENJAMIN SATTERTHWAITE delivered a lecture in Lafavette, on last Wednesday evening, on Religion, Democracy, and Spiritual Rappings. The first two naturally accompany each other, but we cannot see what Spiritual Rappings have to do with either Democracy or Religion, as, according to the Journal the rappers have all enlisted under the banner of "Old Nick" to that merit. Letter From Gen. Cass.

The following letter from General Cass was received ov a committee of the "Young Men's Monumental Association," in reply to an invitation to attend their ball, held at the Hall of the Mechanic's Institute, Baltimore, on Wednesday 3d inst.

WASHINGTON, March 2, 1852. GENTLEMEN: I should be happy to be with you, agreeably to your kind invitation, at the ball to be given by the Monumental Association, on Wednesday evening, could I do so consistently with other engagements. But Without the people it dies. But it may be asked, are as I cannot, I am compelled to forego that pleasure, not the Whigs the people too? If the Whigs are for while at the same time I tender you my thanks for the honor you have done me upon this occasion. I wish you a pleasant party, and I am happy at all times to see associations like yours formed to extend the principles and to promote the success of the Democratic faith, yet coming together for rational and innocent amusement. And the political prospects are so bright that they canvoiled, and looked upon its face. And have they not seen that smile it has worn so sweetly heretofore wreathed into a snare? The shadow goes before the substance. the General Government must be in the hands of the Democratic party. He who runs may read it in the their result. A rule of conduct in the life of a man will upon our divisions, upon local or personal predilections, signs of the times. Our opponents are indeed counting bring him to a certain end. So of a body of men-of a or other differences of opinion which are to prevent our nation—the conduct, the action, is an index to the ultimphant vindication of the vital energy of our principles. umphant vindication of the vital energy of our principles, mate consequence. And now let us inquire, what is and a signal refutation of those unworthy predictions. this demonstration, this unveiling of the face of Whig. As soon as the voice of the party is pronounced in the gery, which shows from present movements the consum- established mode, all other feelings will give way to the mation, the end of that demonstration? It is this; and see shall all join with zeal and unanimity in supportlet every man see in it what is Democracy, and where ing the nominations, and thus securing to our country that course of action, which has given us a greater measure of prosperity than any people ever enjoyed before us, and those principles of administration which are found in the Constitution, and are only found there. I am, gentlemen, with great regard, truly yours Col. J. Mabury Turner, and others, committee.

ITSome two hundred Catholies, in the State of Indiana, have published their determination not to vote for any one who has favored Kossuth or his cause. This will no doubt be considered, by all judicious men of the same persuasion, as ill advised in the last degree. Proscription is a two-edged sword, not to be used in this country. The same men who advocate Kossuth and his cause, are generally the men who sympathized with O'Brien and Meagher; actuated by the same motives in both cases -- a zeal for the cause of civil and religious What peculiar religious elements may be volved in a conflict, our people will not inquire. Our political institutions protect all religious creeds, and regard all like. The Jew, Catholic, and Protestant are regarded all upon the same platform of civil and religious rights. We don't even allow the notion of toleration: for no one has a right to tolerate others. The introduction of any religious feuds into elections here is exceedingly out of place. Those who do it will be sor ry hereafter for their indiscretion.—Louisville Dem.

The Indiana State Journal will persist in cracking bread jokes. Hear it again. "There never has been a time in Indiana, since 1840 that the Whigs felt more confident of success than now!

of whig editors over the time and money spent by a Democratic Legislature, they would involuntarily exclaim—"Alas! for the depravity of human nature!" Nothing but the evidence of their own eyes can give them an adequate idea of the rascality of the whiggery in Indiana.—Rushwille Jacksonian.

plef We have what we should preserve. The people have here liberty and equality. Is it worth preserving? Let them watch then the little beginnings of Whiggery. Take good care of all stock which is to produce young. See that the ewes, cows in ealf, sows in pig, and mare with foal, are properly treated. The cows, ewes, and mares should be well supplied with good, wholesome food, but none of them made too fat. Keep them all quiet and free from exposure, so that the young may be produced in good condition both of dam and offspring. When the young are dropped, supply the mother with proper nu-tritions food, that she may be able to give plenty of milk for her young. Young animals should always have enough to eat, and be made to grow from the start.

The Orchard Caterpillar may be destroyed better now than at any other time. The eggs will be found on the smaller limbs, in a brown cluster surrounding the twig, and looking somewhat like a warty exeresence; but, one known, they will ever be remembered, and are very ea-sily found. Let the orchard bear a thorough look during this month .- Prairie Farmer.

The Last Resort.

Notwithstanding a large number of the Delegates to portion of the Whig press in the State are resorting to every thing of which the mind is susceptible, to mislead

A Good Commencement.

The Democrats of Delphi have just formed the "Deer ournment, passed a law declaring that children of Creek Democratic Club," for the discussion of Democratic principles and policy, and to aid in the triumph of the entire Democratic ticket. The Delphians have set an example which we hope to see emulated by the faithful all over the State. The following resolutions were unanimously adopted:

"Hombogere!"-George W. Kendall writes from Paris to the New Orleans Picayune the following good

Before closing this hasty letter, I must tell one little anecdote which I believe has never been published. About the time Louis Napoleon was first elected President of the Republic, the words Liberte President of the Republic the Republic the Words Liberte President of the Republic dent of the Republic, the words Liberte, Egalite, Fraternite each occupying a line in large capitals, might have been seen on one the main public buildings of Paris. Some wag of an American or Englishman, secretly and without being seen, added another word and another line immediately underneath the above, and in capitals morning. Soon a crowed was collected—anything will collect a crowd in Paris-and many and quaint were the remarks and conjectures as to the intent and meaning of this addition. Such of the spectators as were English or American of course understood the thing, but the poor Frenchmen were sorely puzzled as they turned one toward another, and asked the meaning of the term 'Hombogere." Whether their curiosity was ever gratified is more than I can say.

THE GREAT KENTUCKY REMEDY. DR. JOHN BULL'S SARSAPARILLA!! Will Wonders never Cease?

LINE P. O., Fulton Co., Ky., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The two dozen of your Sarsaparilla, ordered in September, came to hand, and, in acknowledging the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the instances that have come under my observation, during the last two years, of the great curative pr

many of the instances that have come under my observation, during the last two years, of the great curative properties of your Sarsaparilla:—
Mrs. Jeannette Martin, a highly respectable lady of my
neighborhood, aged sixty-five years, had been long afflicted
with a cancerous ulcer, which finally reduced her to so
helpless a condition, that she could not leave her bed. She
tried the best medical advice in our county, without relief,
and had given up all hopes of a cure. At this stage of her
case, I persuaded her son to take a bottle of your Sarsaparilla. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly
good effect. She continued to use it until, after the use of
five or six bottles, I had the pleasure of seeing the old lady
herself at church. She assured me that she had almost
entirely recovered her health, and from her I received the
account of her disease, and in about the same words I give
it to yo— This is but one of a number of cures under my
observation—of very remarkable ones—performed by the
mae of your Sarsaparilla, in my neighborhood. The demand for it has steadily increased since its introduction
here. Very respectfully, your obedient servant,
WM. R. DICKINSON, P. M.

BOTLE COUNTY, Ky., Oct. 6, 1851.

Botle Count, Ky., Oct. 6, 1851.

Dr. John Bull: Dear Sir—I have seen the most marvellous cure of one of my patients, by your valuable medicine—an old lady, who had been afflicted from her childhood with scrofnia, and various diseases of the brain. She was sixty years old. It had run into something like leprosy, and she was the most frightful creature my eyes ever beheld. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our nower to relieve her; but, beheld. I called in Dr. McFalden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our power to relieve her; but, on going to my office, I accidentally picked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected, I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her some more. She is now taking the sixth bottle, and I consider her eatirely cured. I take great pleasure in recommending your Sarsaparilla to the afflicted public.

JOHN M. ROSS, M. D.

I, Thomas A. Ringo, of Graves Co., Ky., for the benefic of mankind generally, do hereby certify, that on or about the 16th day of October, 1847, I was attacked with a very severe pain in the lower part of the abdomen, which lasted but a few minutes, and moved into the left hip, and continued exceedingly painful for about five days, during which time I had a very light fever. At the end of that time the fever cased, and the pain absted for a day or two, after which it again returned, and was much worse than beden to build be a build be three last bottles, the knot on my hip became soft; it was opened, and some corruption ran out, together with a small piece of bone, and the sore soon got well, and the knot entirely diappeared. The sore on my leg also opened, and a piece of bone same out. I continued the use of the Sarsaparilla until I used twelve bottles, and am now entirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the summer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my unele, Thos. Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with disease, that refuse to give Bull's Sarsaparilla a trial. It is indeed hard to believe, but nevertheless, it is too true. What kind of testimony would it take to convince the few remaining disbelievers, that Bull's medicine will do more even than it promises? The doctor could produce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is useless to produce any more, and, indeed, it would cost a fortune to publish the many certificates that have been showered on Dr. Bull. The largest mammeth sheet in America would not contain even the names of those cured, let alone full statements of their cases.

Dr. J. S. HOUGHTON'S

The true Digestive Fluid, or Gastrie Juice.

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chomist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after nature's own method, by nature's own agent, the Gastrie Juice.

Half a teaspoonful of Pepsia, infused in water, will digest or dissolve, Five Founds of Roast Beef in about two hours, out of the stomach.

Haif a teaspoonful of Pepsin, infused in water, will digest of dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or great digesting principle of the Gastrie Juice, the solvent of the Food, the purifying, preserving, and subulating agent of the stomach and is testines. It is extracted from the digestive stomach of the Ox. thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of indigestion and dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Deyspepties, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juica, may be readily prepared from the mucous membrane of the stomach of the Cafe, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the sames manner as they would be in the human stomach."

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and a 1-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in Loudon, who wasseverely afflicted with this complaint, finding everything else to fail, had 'tecourse to the Gastric Juice, obtained from the stomachs of hiving animals, which proved complately successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of disolving various articles of food, and of effecting a kind of

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blanchard, Philadelphia, 1846, pp. 321-2) says: "The discovery of PEP-SIN forms a new era in the chemical history of Digestion. From recent experiments, we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Castria, Itania itself."

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries describe the character and proporties of Persix, and state many interesting details respecting

it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly reaembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

Dr. Houghton's Pepsin has produced the most marvellous effects, in curing cases of Debility, Emaciation Nervous Decline, and Dyspeptic Censumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York, and Boston alone. These were nearly all deaperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tenden or to Bulious Disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles health with intemperance. th with intemperance.
OLD STOMACH COMPLAINTS

There is no form of Old Stomach Complaints which it does not seem to reach and move at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood, and vigor of body follow at once. It is particularly excellent in cases of Nauses, Vomiting, Cramps. Soreness of the pit of the Stomach, distress after ening, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &cc.

Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines, throughout the United States. It is prepared in Powder and the Fluid form—and in Prescription visits for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raused against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

[T] OBSERVE THIS:—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured.

Buck's Improved Patent Cooking Stove.

The subscribers offer to the public four sizes of a new pattern of Buck's Cooking Stove, greatly improved, which they confidently assert to be not only the most perfect. Baking Stove in use, but the most compact and beautiful Cooking Stove ever offered to the public. Its capacity for baking (which in the old Buck's exceeded every other Stove) has been greatly increased by the addition of another oven, which enables it to bake at one time twice as much as ordinary Cooking Stoves. Reing made air-tight, and having dampers, the fire can be regulated to suit every occasion.

Those who want a good Cooking Stove—one that can be relied upon—should see this new Stove, as it cannot fail to please.

We warrant the Stove to give satisfaction, and can refer to hundreds of families which have them in use. We will in every case, if it should fail to please upon trial, take back the Stove and refund the money. Buck's Improved Patent Cooking Stove.

if it should fail to please upon trial, take back the slove and return the money.

We have on hand the largest and best selected stock of Stoves over brought to the market, consisting of Premium Cocking Stoves of the latest and most approved patterns; Ten Plate Stoves, very heavy plate; Seven Plate Stoves, several sizes, (one size to take three feet wood, suitable for churches and school houses); Box Stoves; and Air-Tight Stoves. Also, the celebrated Stanley's and Saratoga Air-Tight Parlor Stoves—the two most heautiful patterns of Air-Tight Stoves in the market.

In addition to the above, we manufacture and keep constantly on hand a general assortment of TIN WARE, which we offer at wholesale or retail at very low prices. We are prepared to manufacture all kinds of work at the shortest notice.
